

HERWESAN UV 50+ CREME

Skin protection cream for UV-A, UV-B and UV-C radiation

Description:	HERWESAN UV 50+ CREAM is a white, slightly greasy, unscented, O/W skin protection cream with a highly effective broad-spectrum radiation filter. Sun protection factor 50+ (International SPF Test Method, Colipa) - very high sun protection. Waterproof, with balanced UVA/UVB protection.
Ingredients (INCI):	AQUA (WATER), NEOPENTYL GLYCOL DIHEPTANOATE, C12-15 ALKYL BENZOATE, GLYCERIN, TITANIUM DIOXIDE (NANO), DIETHYLAMINO HYDROXYBENZOYL HEXYL BENZOATE, BIS-ETHYLHEXYLOXYPHENOL METHOXYPHENYL TRIAZINE (BEMOTRIZINOL), POTASSIUM CETYL PHOSPHATE, TRIS-BIPHENYL TRIAZINE (NANO), ETHYLHEXYL SALICYLATE (OCTISALATE), CETYL ALCOHOL, POLYGLYCERYL-3 STEARATE/SEBACATE CROSSPOLYMER, SILICA, ETHYLHEXYL TRIAZONE, TOCOPHERYL ACETATE, POLYHYDROXYSTEARIC ACID, DECYL GLUCOSIDE, XANTHAN GUM, P-ANISIC ACID, PIROCTONE OLAMINE, TETRASODIUM GLUTAMATE DIACETATE, BUTYLENE GLYCOL, DISODIUM PHOSPHATE, SODIUM HYDROXIDE
Characteristics:	HERWESAN UV 50+ CREAM is a waterproof cream that spreads easily on the skin and is quickly absorbed. HERWESAN UV 50+ CREAM protects effectively against harmful UV-A, UV-B and UV-C radiation thanks to selected sun protection pigments and special organic sun protection filters. HERWESAN UV 50+ CREAM contains moisturizing and refatting substances as well as vitamin E and is formulated without silicones and octocrylene.
areas of application:	HERWESAN UV 50+ CREAM is suitable for all people who are exposed to strong sunlight or UV-C radiation from artificial sources at work or in their free time. This radiation exposure occurs in working life when welding, in agriculture, gardening and forestry, in building, civil engineering and road construction, in shipping and when carrying out photochemical processes. In leisure time, HERWESAN UV 50+ CREAM should be used by mountain climbers, skiers, hikers and cyclists as well as in outdoor pools and beach baths.
Application:	HERWESAN UV 50+ CREAM is applied to clean, washed and dried skin in good time (preferably 20-30 minutes) before UV exposure. In principle, all unprotected areas of skin such as the forehead, nose and eye area should be creamed with HERWESAN UV 50+ CREAM. It is also particularly important to treat the uncovered scalp and the neck and throat area. Avoid eye contact. Apply repeatedly to maintain UV protection, especially after heavy sweating or after cleansing the skin. Use protective clothing/PPE. Excessive sun exposure/UV exposure poses a serious health risk. Every sunburn causes lasting damage to the skin and should be avoided.
Legal regulations:	HERWESAN UV 50+ CREAM is subject to the EU Cosmetics Regulation and complies with the currently valid version. Labeling in accordance with hazardous substances law is not required.
Storage and shelf life	HERWESAN UV 50+ CREAM has a shelf life of more than 30 months (from date of manufacture) in closed containers at room temperature and 6 months after opening.
packaging sizes:	100 ml Tube, 1000 ml VIVA-dispenser cartridge.
disposal:	The cardboard and plastic packaging can be recycled.
